

REPORT MADE
PUBLIC TODAY

Work of the Coal Commission Is Given for Publication by the President.

ITS FINDINGS GIVEN

Says That the Miners Should Have More Pay and Less Hours—Other Results.

(Special By Scripps-Mellae.) Washington, March 21.—The report of the anthracite strike commission was made public this morning. It provides in general for an increase of ten per cent. in the rate of wages paid by contract miners and a reduction of hours' work to other miners. Water hoisting engineers are hereafter to work on hour shifts with ten per cent. increase in wages. Other engineers and pump men to have a 5 per cent. increase. Firemen an eight-hour shift without increase.

Other Conditions
Other mine workers are to be paid the same wages on a basis of a nine hour day that they have been receiving for a ten-hour day. The board of conciliation provided for to settle and dispute arising out of interpretation or application of commission's awards is to consist of three members, selected by the operators, three by miners and an umpire to be selected by the circuit judge.

No Strikes
No strikes or lock-outs shall take place pending adjudication by this board. The commission declines to recognize united mine workers as such by compelling the operators to enter into and contract with that organization, but modifies this in the manner above stated, by providing that the miners' organization shall have hand in the machinery whereby findings of the commission shall be put into effect.

No Weighing
The third demand of the miners that the coal be paid for by weight was refused. The commission refraining from making an obligatory award. The declined to fix a standard of ton where coal is paid for by weight and from imposing upon the owners of collieries where coal now mined is paid for by the car. The obligation to pay by weight and make changes in the plant necessary therefor.

LORD DUNONALD
MUCH DISLIKED

He May Resign His Position as Commander-in-Chief of the Canadian Forces.

THE BLUE NILE

American Explorers Are Seeking Its Source in Central Africa.

(Special By Scripps-Mellae.) Paris, March 21.—Word comes from Arden that the American explorers, MacMillen, Brown and Marlow, have left for the interior of Africa, where they will seek for the source of the Blue Nile.

THE LARGEST TAXPAYER

Andrew Carnegie Will Not Try to Dodge on the Common Plea of Non-Residence.

New York, March 21.—It is said that Andrew Carnegie will pay taxes on the \$5,000,000 assessed on his personality and on realty assessed at \$2,000,000.

Instead of trying to evade payment because of "non-residence," as in the case of other millionaires, Mr. Carnegie will pay the full amount of his taxes.

Mr. Carnegie will be the largest taxpayer ever recorded on the final assessment rolls. His tax alone on personality, figuring at the rate of \$1.45, will be \$52,400.

POLICE CHIEF THINKS
PENNELL IS INNOCENT

Buffalo Superintendent Is Convinced That Burdick Met Death at the Hands of a Woman.

Buffalo, N. Y., March 21.—The Buffalo police authorities reject the theory that Arthur Pennell murdered Edwin L. Burdick. They declare Burdick was killed by a woman.

Superintendent of Police Bull said that his opinion as to who killed Edwin L. Burdick had not been changed at any time since the murder.

"I believe a woman killed Burdick," he declared, "and I suspect the same woman now that I did the day of the murder. I believe Mr. Cusack and the district attorney are of quite the same opinion."

The foregoing statement was made by the superintendent in an interview denying a published report which quoted him as saying: "It looks more like Pennell's job than at any time since the murder."

PAINTINGS ARE
CALLED DAUBS

The Pall Mall Gazette Sharply Criticizes Pictures at Paris Exhibition.

(Special to The Gazette.) Madison, Wis., March 21.—The supreme court today handed down a decision declaring the law passed two years ago, appropriating thirty thousand dollars for repayment of the Keeley cure claims invalid justices Dodge and Winslow dissented.

WANT TO RETAIN LAKE LEVELS

Summer Resorters at Bass Lake, Ind., in Dispute With Farmers.

Le Porte, Ind., March 21.—At the instance of Chicagoans owning summer cottages at Bass Lake, Ind., a bill was introduced and passed in the last legislature prohibiting the construction of drains in such manner as to lower the water in the lakes of the state. The measure was vetoed by the governor and already a petition has been filed for the building of a ditch that, if opened, will be detrimental to Bass Lake and damaging to the property of resort owners and cottagers. The farmers near the lake are determined to have the ditches and the hundreds of cottage owners are resisting. The controversy is one of long standing and has become very bitter.

FLOOD'S CREST
PASSES MEMPHIS

The Mississippi Is Now Dangerous to Cities Below That Point—New Orleans Next.

WATER GOES DOWN

Is Gradually Receding From North Memphis, and the People Are Rejoicing.

(Special By Scripps-Mellae.) Memphis, March 21.—The crest of the flood has passed this city and a feeling of great relief is being experienced by all the citizens over the prospects of the river's going down from now on.

Waters Receded
The high waters in North Memphis have begun to recede and all danger to Memphis itself is thought to be about over. The situation below here is, however, very critical and the levees may break at any time.

Vicksburg Dangerous
It is now thought that the force of the flood will next be felt at Vicksburg and that from then on until the downstream motion has carried the crest to the gulf that New Orleans will be in more or less danger.

(Special By Scripps-Mellae.) Rome, March 21.—Rear Admiral Crownshield who recently applied for immediate retirement has lowered his flag on the Chicago and has turned the squadron over to Ambassador Meyer. The boats will remain for the present at Naples.

FOR THE GENERAL STAFF

Board convened to Organize It Under the Law Recently Passed by Congress.

Washington, D. C., March 21.—The secretary of war today convened an important board, consisting of Maj. Gen. S. B. M. Young, Maj. Gen. A. B. Chaffee, Maj. Gen. J. C. Bates, Brig. Gen. Carter T. H. Bliss, W. F. Randolph and Maj. P. A. Greene, to meet in Washington, D. C., March 30 to recommend for detail forty-two officers from any army at large, including the existing staff corps and departments and the line, to complete the first organization of the general staff of the army. The order provides that the board will be governed by the probable aptitude and efficiency of officers, as established by their records. Vacancies occurring in the general staff corps, after its organization, will be filled upon the recommendation of a permanent board, consisting of the chief of staff and the three senior officers of the general staff corps on duty at the war department.

Bordeaux, March 21.—The Dutch bark Amclitia is on fire at La Roquette. Several lives are reported to have been lost.

CUBAN CONGRESS
MAY BE CALLED

President Palma Is Urged To Have Treaty Ratified at Once, if Possible.

TEN DAYS REMAIN

According to Amendment, It Expires on March 31, if Not Accepted by Cuba.

(Special By Scripps-Mellae.) Washington, March 21.—As the result of a conference between the Cuban minister and Assistant Secretary of State Loomis, the former sent a telegram to the Cuban president, Palma, urging that he call an extra session of the Cuban congress to ratify the Cuban treaty.

Amended Treaty
The amended treaty is so fixed that it must be ratified by the thirty-first and in order to do this the Cuban government must at once call congress together and ratify the treaty formally. Failure to do this would make the present treaty void.

Grave Fears
Owing to the fact that but ten days remain before the time limit expires it is thought that perhaps the force of the treaty may be lost by the expiration of the time limit without any action by Cuba.

OLD ATLASES ARE
TO BE EVIDENCE

ONE MAN TIES UP PLANT

Line Fireman Throws 1,000 Persons Out of Employment.

Chicago, Ill., March 21.—One fireman struck at the Selz, Schwab & Co. shoe factory, closing the plant and throwing 1,000 other employees out of work Friday.

The lone fireman was to have been assisted by the engineer, but his ally failed him at the last moment and the stoker was compelled to enforce his demands alone. He was being paid 12½ cents an hour and working twelve hours a day. The union enlisted him, and late yesterday Business Agent Rildoran of the Brotherhood of Stationary Firemen demanded of the company that they sign an agreement to pay the man who kept the fire going under their boilers the union wage, 23½ cents an hour. The demand was refused.

Horseman Found Guilty.

St. Joseph, Mo., March 21.—Robert Craig, well known throughout the country as a horseman and inventor of a horseshoe for racing stock, was found guilty of manslaughter and his punishment fixed at two years in the penitentiary. He stabbed to death an employee.

HOUSE ORDERS SENATE
CLERK UNDER ARREST

Missouri Lawmakers Take Action Against Man Who Refuses to Testify Before Committee.

Jefferson City, Mo., March 21.—In the house a resolution by Davidson was adopted by a vote of 70 to 22 to imprison Senate Clerk Cole Hickox for contempt in refusing to answer questions asked by the house committee investigating committee as to where he got two \$500 bills.

When the result of the vote was announced Hickox was taken in custody by the sergeant at arms. The resolution provides that he shall be committed to the Cole county jail and remain there at the pleasure of the house. Hickox was arraigned before the house and was asked by the speaker if he still declined to answer the committee's questions. "I do, sir," replied Hickox in a firm voice. The resolution to commit Hickox to jail until he satisfies the committee then was presented and adopted.

ENRAGED REBELS
BEHEAD OPERATOR

They Cruelly Cut Off His Head While at His Post of Duty.

(Special By Scripps-Mellae.) Tela, Honduras, March 21.—The insurgents maddened by victory have committed several outrages in this vicinity and one of them was to behead a telegraph operator as he was at work at his machine.

STATE NOTES

Heavy rain is causing several of the main highways at Racine to sink. La Crosse pupils are suspected of guilt in connection with the fire started in the high school.

The Clark house at Beaver Dam was destroyed by fire, causing a property loss of \$15,000.

The young son of Dominee Gagnon at Marinette choked to death from an apple core sticking in his throat.

The date for the debate between teams of the State university and Georgetown has been set for April 30.

Much alarm is felt by mill men at Appleton, owing to the signs of weakness which has been shown in the big government dam.

Peter Dorzynski pleaded guilty at Wausau to an attempted criminal assault and was sentenced to serve seven years at Waupun.

P. Van Breckan was accidentally caught in cog wheels in a Deperre flour mill and received injuries from which he cannot recover.

The Barron stove and heading mill at Barron was completely destroyed by fire. The fire is supposed to have been started by the fan in the dryer.

Carl McCormick, a Prairie du Chien pearl fisher, who found on of the most beautiful pearls on the upper river last year has been found frozen in the ice near Ferryville. He had been missing since Feb. 7.

A 10 percent raise for every motor-man who has been in their employ a year has been voluntary given by the Marinette and Menominee electric street railway.

Three more people have been bitten at Kenosha by the dogs supposed to be afflicted with hydrophobia. Mabel Johnson, a three-year-old child, was terribly mangled.

Frank Bell was given a preliminary hearing at Prairie du Chien and bound over to the Circuit court, his bail being placed at the sum of \$1,000. Bell is wanted at Richland Center and other places for burglary.

Mrs. Martha Schmitz, a Racine widow, was awakened by smoke, and rushing into the room of her two children, who were nearly choked from the smoke and fire, she dragged them out after which she managed with blankets and water to extinguish the fire. Her hands, arms, and face were considerably burned.

CONSULATE QUESTION
IS NOW SETTLED

Norway and Sweden Will Have Separate Consulates in Foreign Countries.

(Special By Scripps-Mellae.) Christiania, March 21.—The old controversy between Norway and Sweden as regards Norway's claim for separate consulates is on the eve of settlement and it is practically agreed that each country will have its own representatives in foreign countries.

MICHIGAN DEFEATS WISCONSIN

Judges Decide for Those Who Favor Federal Income Tax.

Madison, Wis., March 21.—Michigan defeated Wisconsin in the intercollegiate debate on the federal income tax question, the judges deciding two to one that a general income tax on inheritances levied by the national government was preferable to the exercise of that power separately by the individual states.

Cremation an Aid to Crime.

London, March 21.—George Chapman, charged with the murder of three women, was convicted and sentenced to death. Judge Grantham commented on the fact that if cremation had been the law of the land it would have been impossible to bring the charges home to Chapman.

MEANS MILLIONS
TO WORKINGMEN

Decision of the Coal Commission Will Give the Miners Back Pay from November.

COST OF STRIKE

It Is Estimated It Amounted to One Hundred Million Nine Hundred Thousand Dollars.

(Special By Scripps-Mellae.) Wilkesbarre, March 21.—The decision of the strike commission will give to the miners back pay amounting to nearly a million dollars as it will date from November 1st, since when the men have been working the most steadily.

Are Pleased
The miners here seem pleased with the decision so far as it refers to the increase but had rather that the commission had recognized the union more fully than they have. It is, however, considered a union victory.

Cost Millions
The commission in their report place the loss due to the strike at a hundred million, nine hundred thousand dollars. The miners here and those in authority do not think these figures are at all off from the exact figures and that the loss is a fair estimate.

CRAZED MAN IS
IN THE LOCK-UP

Believes He Is the Re-Incarnation of Jesus Christ—Claims Great Powers.

Christ has again appeared on earth to save all sinners if the story of Carle Carello, now confined in the city lock-up, is not the imagination of a diseased brain. He refers his visitors to the second coming of Christ to this world and says he is the incarnation of the son of God.

The young man has been about Janesville for the past year and looks very much like an Italian, although he claims to have negro blood in his veins and to be a native of Kentucky. He has worked at various things while he has been here and at one time was in the employ of the Parker Pen Co. His last place of employment was on the farm owned by Patrick Rider near the west limits of the city. He is also quite a musician and for awhile played the violin in the opera house orchestra.

Is Daffy

Lately he has been stricken with a religious mania and has made himself obnoxious to a number of people. He has visited Rev. Denison's home several times and one night tried to open a window and get into the house. The family heard him, however, and drove him away before he secured an entrance. When he left he announced that he came "as a thief in the night." Rev. Denison believed him deranged and intended applying to the county judge to have him taken in custody by the authorities and examined as to his sanity.

Scares Agent

For several nights he has been around the North-Western passenger station and has caused the employees considerable uneasiness by his ravings, especially in the lunch counter attendants. Last night he was taken with one of his spells, and commanded the moon to stop in its course. Officer Benke was called to the station and took the young man to the city lock-up, where he was given a chance to use his supreme power and order the iron doors to open and let him free, but at last accounts was still safely confined.

Evidently Crazy

Corello stated this morning "that he was a native of Kentucky and that negro blood coursed through his veins. That while at work on the Rider farm he was anointed and received supreme power from above. By this great power he could subdue all disease and would live a thousand years. He was on earth to reform all evils, but did not come this time as a lamb but as a royal Bengal tiger. His coat was lined with indeed lamb's wool but the blood spots on it were symbolical of his power. He had solved the race problem, no white man could do it, but he by means of his great power from above had solved it." He does not drink coffee and eats only dry bread in imitation of Christ, and said that fresh bread was not fit bread for any one.

Is Quieted

This morning he was making a great deal of noise and banging the iron bunks in his cell and refused to be quiet until Janitor George Phillips told him that they had a sick man in the next cell to him and if he was Christ he would not make a noise and annoy him. He imagines that there is another prisoner in the cell with him and calls for the police to come and remove him, as the man is a dangerous character and will kill him if he goes to sleep. An application will be made to Judge Sale for the appointment of a commission to examine the young man and have him sent to Mendota for treatment.

MINERS ARE LEAVING CARDIFF

Explosion Throws Them Out of Work and Town Is Deserted.
Dwight, Ill., March 21.—The explosion in the Cardiff mine in which nine men lost their lives, will prove a serious blow to the community, as the works are so completely wrecked that it will be many months before mining can be resumed. Work has already been begun to reclaim the mine, but only a small number of the men can be employed at this. Already 300 miners have left the place and the village of 2,000 inhabitants will show little sign of life until the mines are reopened.

After Twenty Three Years of Excruciating Agonies and Sufferings Mrs. Welcher Is Cured By

Paine's Celery Compound

THE LIFE-SAVING COMPOUND IS THE TRUSTED SPRING MEDICINE IN MILLIONS OF HOMES THROUGHOUT THE WORLD.

From time to time adventurers and speculators without conscience or soul, actuated only with a desire to make money easily and fast, resort to the compounding of worthless and dangerous preparations, and advertise them as the cures for the common diseases that afflict men and women in springtime.

MRS. H. A. WELCHER, Kingston, Tenn., Had Suffered Agony for Years.

men in springtime. Would to Heaven that the cry of danger! danger!! could be sounded in the ears of all who unthinkingly buy and see such deceptions and frauds.
Fortunately honest druggists despise such worthless remedies and refuse to sell them. They will tell you with candor that Paine's Celery Compound is the spring medicine they can recommend. They know its composition, are acquainted with the facts of marvelous cures effected by it, and have seen its happy results amongst their personal friends.

Can you, dear sufferer, hesitate to try this disease-curing medicine? It has restored to health and the full enjoyment of life tens of thousands of whom doctors were unable to cure. Mrs. H. A. Welcher, of Kingston, Tenn., says:

"It gives me great pleasure to tell to the world what Paine's Celery Compound has done for me. For 23 years I have suffered with chronic flux or ulcers of the bowels. I have had eight or nine of the best physicians of the state at different times to wait on me, but never had any relief. I was treated by several of Knoxville's best doctors, and after seeing so many testimonials and so many that I knew, I was induced by my son to try a bottle, and before I had used the first bottle I could feel quite a difference—that I was getting stronger, and I enjoyed my food more, and after taking four bottles I was entirely cured. I only wish that the medicine could be placed in the reach of all suffering humanity."

FEARS STRIKES MAY HURT TRADE

RAILROADS FAIL TO KEEP UP

Facilities Need to Be Extended in Order to Take Care of the Enormous Demand for Transportation by the Merchants.

New York, March 21.—"Only one distinctly unfavorable factor is reported in the business situation, and it exists more in the fear of what may happen than through anything that has actually occurred. Several strikes are in progress, but none that seriously hampers industry, although many controversies are threatened and may interrupt trade unless agreements are speedily reached. Progress has been made in relieving traffic blockades, and deliveries are more prompt, yet railway facilities need much extension if they are to keep pace with the nation's growth." The foregoing is from the weekly trade view of R. G. Dun & Co., it continues:

Jobbing Trade.

"Jobbing trade is very large and the advancing season stimulates retail sales in many lines. Reports from the West are especially satisfactory; agriculturists making extensive improvements, notably in the purchase of the most modern machinery. Buying of spring and summer merchandise is heavy for the interior, and mills are resuming that have long been idle because coke could not be secured.

Building Operations.

"A careful canvass of building operations at the leading cities makes a fair comparison with last year, outside of Chicago, where special conditions caused exceptional activity in 1902; returns are unanimous in disclosing a decrease compared with 1901, which, however, was the banner year in this respect. High cost of material and wages of labor are undoubtedly retarding influences at the present time. Railway earnings thus far available for March show an increase of 14.6 per cent over last year, and 26.1 per cent over 1901.

Steel Outlook.

"Prospects in the iron and steel industry are still conspicuously encouraging. Only two drawbacks of serious importance are seen—railway congestion and labor disputes. The former has greatly diminished with settled weather and coke is moved freely to blast furnaces, while pig iron and other products reach their destination with less interruption.

Textile Markets.

"Textile markets are only fairly active, the buying at first hands for home account being on a moderate scale and forward business indifferent, except in the case of a few specialties. Unquestionably the undertone of the cotton goods market is strong. Demand for heavy weight woolsens has decreased, most new orders being for the cheaper grades. Much better conditions prevail in the dress goods market, both as to staples and fancies.

Footwear.

"New England shoeshops report increased sales, western jobbers placing orders for August and September delivery. Leather is more active, and tanners are not carrying surplus stocks. The market is in a healthy condition. Another general reduction is reported in domestic hides, but foreign dry hides average higher, despite larger receipts.

"Failures this week numbered 220 in the United States, against 209 last year, and 22 in Canada, against 31 a year ago."

DEARTH OF COFFINS IS FEARED

Members of Union in New York Demand Better Pay.

New York, March 21.—If the United Casket Coverers' and Trimmers' union continues on strike much longer there may be a dearth of coffins in New York. The coffin-makers complain of long hours, declare that they must always be at hand to work on rush orders and are compelled to spend most of their Sundays in the factories. For all this they receive too little pay, they declare. They expect a call from their employers to go back at increased wages.

Hits Insurance Combine.

Albany, N. Y., March 21.—The Assembly committee on insurance has decided to report favorably the bill providing that fire insurance companies that combine to regulate rates shall forfeit their charters.

Favors Union With Hungary.

Vienna, March 21.—Dr. von Korbner, the Austrian Premier, in an able speech has shown that he is fully alive to the importance of an economic union with Hungary.

Rumor of King's Marriage.

Madrid, March 21.—The newspapers here again are talking of a marriage between King Alfonso XIII and Princess Louise Francoise, daughter of the countess of Paris.

Woman Weds Sixth Time.

Alto Pass, Ill., March 21.—Mrs. Sarah Putney and Joseph Brown were married here. The bride is 65 years old, and this is her sixth marriage. The groom is 73.

Severe Drought in Australia.

Melbourne, March 21.—A preliminary return of the wheat harvest just reaped illustrates the severity of the drought in Victoria. The total yield is 2,386,000 bushels, averaging 1.26 over the area sown. It is the lowest yield in twenty-eight years.

PENSIONS FOR OLD EMPLOYEES

Standard Oil Company announces Plan for Retirement.

New York, March 21.—Between 500 and 600 men who have been in the employ of the Standard Oil company in the refineries in Long Island City, Green Point and Williamsburg for more than thirty years will be retired April 1 on half pay. All these old employees have been notified to file their applications for retirement and, though many of them are still young, all complied with alacrity. This will not affect the men in humble situations, but all the heads of departments who have seen more than thirty years' service. The company has never discharged its men who have grown old in its service, but has kept them at work about the yards on half pay.

MARRIES FOR SEVENTH TIME

Michigan Man Claims Record in the Wedding Line.

Buchanan, Mich., March 21.—William Hulbert of this place claims the record in the matter of contracting marriages, and up to this time there has been found none to contest the claim. Hulbert has been married seven times and he is not yet fifty years old. He got four wives out of two families. Death claimed three and the others were divorced. He recently advertised in a New York paper for a wife and as a result a woman of the Empire state now presides over his home.

Flinds Lost Mine.

San Bernardino, Cal., March 21.—Charles Dushaw, a desert miner, has found the lost Peleg mine, search for which has cost many lives. The mine is marvelously rich in quartz.

Letter to Mr. R. B. Harper, Janesville, Wis.

Dear Sir: Porterhouse, so much; neck, so much; all the way between. Just so much paint. Devoe Ready Paint is the porterhouse. Nobody wants the neck; the between, some say, is good enough for them. But Devoe costs less, not more, than between. Lead and oil is between; it is the old-fashioned paint. But zinc has come in. Zinc toughens white lead. Devoe Ready Paint is the paint.

If you paint in three years, you do it for looks. Devoe does not wear out in three years. Mr. J. P. Baker is our agent in Janesville. Yours truly,

F. W. DEVOE & CO.

EVER HAVE IT?

If You Have, the Statement of This Janesville Man will Interest You

Ever have a "low down" pain in the back?

In the "small" right over the hips? That's the home of backache. It's caused by sick kidneys. That's why Doan's Kidney Pills cure it.

Janesville people endorse this. Read a case of it:

Mr. E. Dillenbeck of 120 Milton avenue, retired farmer, says: "My wife was troubled with kidney complaint for four or five years and complained of pains in the small of the back in the region of the kidneys. The symptoms all indicated that the kidneys were deranged and the doctors who treated her said that those organs caused the disturbance. As she did not get any better we thought Doan's Kidney Pills might give her relief, on procuring them at the People's Drug Store, I had her use the remedy. I did for her all that could be expected. We can recommend Doan's Kidney Pills and you can use our names as aying what has been stated above."

For sale by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for U. S.

Remember the name, Doan's, and take no substitute.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Drug-gists or by mail; Trial Size, 10 cents by mail.

ELY BROTHERS, 50 Warren Street, New York.

Mrs. Laura S. Webb,

Vice-President of Women's Democratic Clubs of Northern Ohio.

THERE ARE MANY sickly women between the ages of 45 and 55, but there are very few invalids over 55 and 60 years of age. The change of life coming to a woman near her forty-fourth year, either makes her an invalid or gives

Mrs. Laura S. Webb.

her a new lease on life. Those who meet this change in ill health seldom live ten years afterward, while a woman who lays aside the active duties of womanhood in health seldom fails to live on in happiness, years after she has passed 60. This is truly a critical time.

Mrs. Laura S. Webb, of Toledo, Ohio, recognizes the change of life as a dangerous period and she also has faith in Wine of Cardui. She writes:

"As I had always been troubled more or less at the menstrual period, I dreaded

the change of life which was fast approaching. While visiting with a friend I noticed that she was taking your Wine of Cardui, and she was so enthusiastic about it that I decided to try a bottle. I experienced some relief the first month, so I kept on taking it for three months and now I menstruate with no pain and I shall take it off and on now until I have passed the climax. I do not dread it now, as I am sure that your Wine of Cardui will be of great benefit at this time."

Wine of Cardui is the remedy to re-inforce a woman against the shock that comes with the change of life. It re-establishes healthy functions after years of suffering. In doing this it has saved thousands of sufferers just in time. Do not wait until suffering is upon you. Thorough preparations should be made in advance. Begin the Wine of Cardui treatment today.

A million suffering women have found relief in Wine of Cardui.

THE REVIVAL
Some forty years ago or more in a country district in a neighboring state an old fashioned revival meeting was in progress. It was conducted by an enthusiastic religious sect known as the United Brethren, and the house of worship was a little backwoods school house.

The country was sparsely settled, and the little audience that packed the house every night was composed of farmers. Some of them came from miles away, but they were there for two months with clock-like regularity.

A wave of religious enthusiasm swept over the community that was irresistible. When the meeting closed at midnight, people started for home saying that they would not be caught there again, but the next night they were on hand ready for another season of refreshing.

One of the prominent leaders was happy Billy Smith, a round faced, Pennsylvania farmer, noted for good nature, a genial smile and a voice like a fog horn. The society was not noted for oratorical talent, but a number of the brethren were able to speak earnestly and convincingly, as the spirit gave them utterance, and after the meetings had been in progress for a few days there was no lack of utterance.

The man who led in prayer was wonderfully assisted by the loud "amens and hallelujahs," and when the climax was reached, half a dozen seekers were stretched out on the floor having lost their strength and consciousness under the divine influence of what the brethren termed "the powers."

The people got religion in the good old fashioned way, and the reality of the experience was free from doubt and skepticism.

The meetings continued until the material was exhausted, and when there was no more citadels to conquer, the assemblage scattered to put into practice the new found faith that had dawned upon them with such startling revelations.

This was before the days of ethical culture and conservative piety, and within a year a new church was dedicated, with shout and loud acclaim, and for forty years the descendants of Happy Smith and his associates have worshipped the God who revealed himself so marvelously in the little backwoods school house.

Many changes have occurred since the early days and the noisy revival of 1857 with attending influences, which swept over the country like a tidal wave is an experience of the past.

With the progress and development of the age enthusiasm is not lacking, in fact there has never been a time when it was more necessary to success than today.

The business world is full of it, and young people are taught to cultivate and recognize it, but religious enthusiasm is no longer in good form.

The heart is regarded as too sacred a precinct to be disturbed by emotion and conversion has come to be largely a question of intellectual belief.

These conditions have contributed to a spirit of unrest and from a matter of simple belief founded on faith in the words Redeemer, a great army of people have become intellectual drifters trying in vain to satisfy by process of reasoning the simple question of faith in God that can only be solved in the realm of the heart.

To the Salvation Army has been largely delegated the work that was originally regarded important by the churches, but their meth-

ods are so crude that they do not reach the great mass of humanity. It is popular for the father to say to his son "You don't know what hardship means," and then recount the experiences that came to his boyhood, and the lack of advantage which surrounded his early life. It is easy to be pessimistic and to argue that the world is going to the dogs. Too many minds are disturbed over this sort of uneasiness, and yet it is well to remember that truth is fundamental, and the underlying principles of the Christian faith are as old as they are important.

Many people lack the brain capacity to satisfy the intellect on questions of belief, and people, who are too heavy with brain endowment seldom satisfy individual conscience through processes of reasoning, unless the heart is taken into account. The age is intellectually religious, but it lacks the fervor of old time piety.

Creed and church membership with flexible regard for obligations, are the rule, not the exception. The statement is often made that the increase in church attendance is not in keeping with the progress of the age. More is expected today of the preacher, in the way of intellectual attainment than ever before. His theology may not be questioned, but he is not expected to waste any time on sentiment. The heart to heart talk is no longer popular, and largely because of this fact, the masses are not interested.

The great heart of humanity has many things in common. Environments have but little to do with it. Joy, grief, love, hate and the long list of soul equipment have to do with the heart, the fountain of life. They belong to the masses, and include every condition of life.

When the church reaches the masses it finds the avenue through the heart and not by way of the brain. Human sympathy is of divine origin. It is so tangible that any mind can grasp it. No argument is necessary to establish its sincerity. When the heart, burdened with grief and blighted with sorrow, seeks comfort, it never turns to the volume of theology or the works of culture, but always to the warm heart of sympathy.

A revival of religion is an appeal to the heart and not to the intellect. While the Episcopal and Catholic churches are observing Lent, and devoting a season to self examination and reconsecration the other churches of the city are about to engage in revival services.

Union meetings under the leadership of a noted evangelist are to be held and an intelligent effort will be made to arouse dormant religious energies and awaken in the community more zeal and enthusiasm in church work.

The meeting will be successful in proportion to the amount of heart investment. The experience of forty years ago are not expected, and the community would doubtless be shocked if they occurred, but the same spirit of earnestness will be necessary if permanent good is accomplished.

Many good people object to a revival of religion. They are willing to stir up their liver when it becomes dormant, and they are enthusiastic over questions of business, politics, social life and moral reform, but when it comes to the heart, that is a domain that should never be entered or unduly aroused.

This is a mistaken notion. Religion without enthusiasm is like an engine without steam. It possesses all the elements of strength, with the motive power lacking. A dead engine is neither useful nor ornamental. It is simply an impediment on the great thoroughfare of life.

The city is in the throes of a revival of morals, along the line of business reform. There has been no lack of money or enthusiasm. The fires of justice have been rekindled and obstructions removed. The morals of any life or any community depends very largely upon the religious sentiment that enters into the structure.

The time is opportune for a revival of religion, and if the fact is appreciated the efforts about to be made will result in permanent good to the city.

NO CAUSE FOR ALARM

People who have been worrying about the natural supply of anthracite coal will be interested to know that a recent survey conducted by Prof. Walcott, director of the United States Geological Survey, discloses the fact that the country can draw on the supply at the rate of 60,000,000 tons for 200 years and then have enough left for another half century. The present generation is more interested in how to furnish coal to meet the demands. Some of the state laws are so onerous as to prove a constant menace, or if the laws are not a menace the manner in which they are treated is.

One of the laws provides that no transportation company shall be interested in a coal mine, yet the recent strike revealed the fact that the anthracite district was practically controlled by this class of companies. Another law prevents a man working in the mines unless he holds a license gained by two years experience as a miner. This law prevented the employment of non-union labor to a large degree. The commission appointed by the president will doubtless straighten

out some of the inconsistencies which surround the problem. If there is any class of combines that should be abolished, it is the coal combine, from the man who produces it to the dealer who handles it for the consumer. The people are entitled to this fuel at reasonable prices.

The first union revival meeting will be held at the congregational church tomorrow night. It will be a good place to spend the evening.

It matters not whether you are republican or democrat. This is the year when citizenship means more than partisanship.

Equitable taxation does not mean unjust discrimination. There are several classes of prosperity besides railroads.

Every church in the city has room for more communicants. The auditoriums are seldom crowded.

It is gratifying to approach a city election where the general topic of conversation is reform.

Business reform is in the air. The question is so practical that no sane man dares oppose it.

PRESS COMMENT
Appleton Crescent: It was eminently fitting the trend of today that Editor Frank E. Noyes of the Marinette Eagle was unanimously selected as president of the Wisconsin Press association. The infusion of the vigorous young blood of this virile, able editor is a happy recognition of the eternal fitness of things in needed progress and advancement of the association along lines of practical and mutual benefit.

Sturgeon Bay Advocate: There is a bill pending in the legislature that will interest farmers very much. It offers a bounty for the destruction of crows, that arch enemy of the agriculturist. If it becomes a law 10 cents will be paid for each full-grown bird destroyed, 5 cents for young ones and one-half that amount for nestlings. It was the general desire in all parts of the state for the enactment of such a law.

Fond du Lac Reporter: The bill to exempt mortgages from taxation should pass. As the Reporter has frequently pointed out, such property cannot be taxed without making the borrower pay it. In one way or the other, if the legislators will devote their energies to devising equitable laws for the taxation of tangible property they will accomplish more permanent good than will ever be brought about by the sentimental crusade for mortgage taxation.

FIRST MEETING HELD TOMORROW

BIEDERWOLF-STOUT SERVICES TO BEGIN SUNDAY EVENING...

MEN'S MEETING IN AFTERNOON

Long Awaited Revivalists Will Enter Upon Their Work Among the Churches.

The Biederwolf meetings begin tomorrow. After weeks of preparation and laborious planning, many committee conferences having been held, all preliminary steps having been taken, and Rev. Biederwolf, with his singing helper, Prof. B. P. Stout, will enter upon their evangelistic work tomorrow. The first service will be for men, and will be held in the afternoon at the Y. M. C. A. building. In the evening the first public services will be conducted at the Congregational church.

REV. E. BIEDERWOLF

His Success Wonderful
It is almost needless to say anything at this day of the marvelous success with which Mr. Biederwolf has met. His recent series of meetings at Beloit were little short of phenomenal in their fruits. Several of the meetings were held in the opera house, and parquet, balcony, and gallery were crammed with men and women who were attracted by his powerful addresses.

Careful Plans Made
These meetings attracted such widespread attention that it was determined if possible to secure him for this city. Five churches, the Baptist, Court Street Methodist, First Methodist, Presbyterian, and Congregational, united in planning for his coming, when it was found that he could come to Janesville for a time. Committees were formed, the pastors met in frequent conference, and tomorrow the services begin.

Prof. Stout Will Sing
Assisting Rev. Biederwolf will come a singer who has never before been associated with him—Prof. Baltus P. Stout. Both Mr. Stout and Mr. Biederwolf have conducted series of meetings separately in Beloit, and both have achieved notable success singly, in company they should be wonderfully successful.

To Announce Plans
It will be well if as many as possible attend the opening services tomorrow evening, aside from taking advantage of hearing these two powerful exponents of the gospel, in order to learn their plans for the coming meetings. Announcements will be made at that time as to the place of holding the Monday and Tuesday meetings.

NEWS OF THE CITY IN BRIEF.

Edward Prye Dead: Edward Prye of the town of Porter passed away yesterday after a short illness. Mr. Prye had many friends in Janesville and was held in high esteem by his neighbors.

Clutch Club Entertained: Mr. and Mrs. E. W. Heylman entertained the members of a clutch club at their home in the Kent flats. Supper was served to the guests at 7 o'clock and the balance of the evening devoted to cards.

A Tame Affair: The athletic carnival at Beloit last night was a tame affair according to all accounts. It had been touted about that the last go was to be a knock-out, but evidently it did not come off.

Hotel Contract Let: Schneiberg Bros. of Milwaukee were the successful bidders for the construction of the new hotel to be erected at Beloit. Their bid was \$55,500, and the contract was awarded them at a meeting of the building committee held at Beloit last night. The new hotel will be built as near fire proof as possible and supplied with all modern conveniences. The work will be started as soon as possible to have the building ready for fall.

Thank the Donors: On Thursday morning a large and beautiful flag was given to the Second ward kindergarten as a token of the pride and interest of the mothers, Rev. Denison making the presentation speech. Some of the mothers who were influenced in bringing about this happy occasion were there to observe the pleasure it afforded their little ones. As not many of the donors were present, the teachers of the kindergarten, in behalf of the children, wish to express their gratitude to all. They feel that this emblem, which has become a part of the kindergarten, will arouse in the hearts of the boys and girls a spirit of loyalty to their country.

Jeffris at Madison: M. G. Jeffris appeared at Madison Thursday to argue before a house committee against the bill requiring telegraph and express companies to deliver prepaid messages and packages to all parts of the city without extra charge. He opposed it on the ground that the law would probably not be valid if enacted, and that it would be a public inconvenience if enforced, owing to the additional charges that the sender might have to pay in cases where a message was intended to reach a man either at his place of business or his residence.

NOTICE TO ADVERTISERS.

On and after April first, 1903, no contract will be made for business local. The rate for this class of advertising will be 10 cents per line for each and every issue of either Daily or Weekly. The Gazette adopts this policy for two reasons:

First. To improve the news columns of the paper. The first consideration of any newspaper is the reader and its value to the advertiser depends entirely upon its popularity with the reading public. Business local frequently flood the composing room the last hour before the paper goes to press, and news is sacrificed to meet the demands of this class of business.

Second. The Daily Gazette is rapidly extending its circulation throughout the county, giving the Janesville merchant an opportunity to talk to the farmer as well as the city customer, six days in the week. This means faster machinery, and increased expense in producing a paper as well as increased value for advertising purposes.

The Gazette has also adopted what is known as the space rate for display advertising, and prices have been placed within the reach of all advertisers.

The paper has long enjoyed a liberal patronage from home merchants, and it is in position today to furnish better service than at any time in its history.

Y. P. S. ARE TO MEET EASTER WEEK

Trinity Church Young People's Society Met Last Evening to Transact Business.

At a meeting of the Y. P. S. of Trinity church, held in the church guild hall last evening, it was decided to hold their next social meeting during Easter week. It will be held at the home of Miss Susan Segers. In addition to fixing upon this date, business of importance was transacted. Several amendments to the constitution and by-laws were considered, and action taken regarding them. The annual election of officers will take place at the next meeting.

CLOSE BOWLING MATCH

Junior Y. M. C. A. League Teams Take Part in Exciting Game.

One of the most exciting bowling matches of the season was rolled on the association alleys last evening. The contesting teams were members of the Junior league, captained by Guthrie and Merrill. Guthrie's team has not yet been defeated this season, and interest was great when Merrill's team took one game, and held their opponents so close that Guthrie's only chalked up a total margin on the three games.

Hildebrand, the Artist, Will Remain Here Another Week.

H. Hildebrand, the artist who has been making portraits at the Frank D. Kimball furniture store, has received no end of praise for his excellent work. At 75 cents each, these portraits are the equal of \$5 values. Mr. Hildebrand will remain here another week and all persons who wish his services are requested to leave their orders as soon as possible.

BOYS' FRANKS CAUSE FIRE AT HIGH SCHOOL

La Crosse Youth Indulge in Practical Jokes at Expense of Professors and May Be Arrested.

La Crosse, Wis., March 21.—The investigation following the suspension of twenty students from the high school has developed sensational information and arrests will follow. For several weeks the high school boys have been playing pranks of all descriptions and it was for locking in Prof. Leahy that the twenty boys were suspended.

Five was discovered in the basement of the high school building while the school was in session. An investigation developed the fact that it was of incendiary origin.

Some of the boys bought a quantity of valerian of ammonia, which they scattered upon the floors in the different rooms in the building. The smell arising from the drug became unbearable and some of the students became ill. The matter will be thoroughly investigated by the board of education.

HAS REACHED A RIPE OLD AGE

JAMES SUTHERLAND PASSED HIS EIGHTY-THIRD MILESTONE.

CAME TO JANESVILLE IN 1847

He Has Been Twice Elected Mayor of Janesville, and Has Also Been State Senator.

Hon. James Sutherland Friday celebrated his eighty-third birthday. Born in 1820 he came to Janesville in 1847 when but a young man and in 1848 opened his book store which he still owns and controls, as he has done for the past fifty-five years he has been in business.

Charming Tribute Yesterday the Christian Endeavor society of the Congregational church remembered his birthday with a huge

bunch of carnations and ferns and with the gift was the following little note, the verse being one of Francis Haverhals', the famous English christian woman:

A little is lost, but more is won. As the stern work of the day is done.

There is less of fancy but more of thought. For we lose the mists with the dew of youth;

And a rose is born. On many a spray which seemed only a thorn.

His Promise Mr. Sutherland was elected the first school superintendent in the town of Janesville, and was also the first superintendent after Janesville was incorporated into a city. He was born in Smithfield, Ohio, and was educated at the Ashland academy, teaching school to earn the money to pay for his education. He has for many years been treasurer of the Rock County Bible society and in 1894 was elected its president. He is a vice president of the State Historical and is also a member of the American Historical association. He has twice been elected mayor of Janesville and has served two terms in the state senate.

Literary Work Mr. Sutherland's literary work has been chiefly in the way of sound logic and earnestness. He is the author of a little volume entitled "Talks on Living Subjects."

TO WORK ON ROAD EARLY NEXT WEEK

The Wisconsin Telephone Company Will Build Farm Exchanges Very Soon.

The Wisconsin Telephone company is beginning to plan out of town construction next week, and with that end in view a number of new linesmen have been engaged. Charles Reeder and Theodore Haskins are among those who have entered the employ of the company. Two others are expected from Milwaukee in a few days. Work will begin on the Johnstown road, and from there operations will be shifted to the Leyden road. In both of which direction farmers' exchanges will be constructed.

Yesterday the company began to move its heavier material, which has been stored in rooms in the Ziegler block, to a basement in the Myers block, under John Myers' art store. The former quarters became inadequate to accommodate the heavier line building supplies.

HIGH SCHOOL MEET OCCURS TONIGHT

Annual Indoor Class Contest Will Be Held in the High School Gymnasium.

Strong class interest is expected this evening when the annual indoor meet of the high school will be held. The high school gymnasium will be the scene of the contest. As the entries are numerous each of the four classes being represented in almost every event, there is every reason to look for a wild display of enthusiasm. There are from five to a dozen entries for each event. These entries were made last evening.

To close the evening there will be a tug-of-war. Each of the four classes relay race will also be run. Besides these two events there will be ten others. Practice has been regular during the past week, and kept up to a certain degree before that.

Chinese Migrations. About 40,000 Chinese emigrate to Vladivostok every spring and return to Chefoo in the autumn.

Are at Beloit: The Strollers, which will be seen at the Myers Grand on April 29th are playing tonight at the Wilson opera house at

NEWS OF A PERSONAL NATURE

W. T. Dooley and family visited in Beloit today.

Edward H. Peterson and M. O. Montau had business in Beloit today.

Miss Estelle Williams has returned from a three months visit in California.

Mr. and Mrs. Walter R. Bailey of Chicago, formerly of this city, have welcomed a ten-pound baby girl to their home.

T. B. Earle was in the city today from Edgerton and called on the local meat dealers.

R. J. Hill was in the city today from Beloit on business for the R. B. & J. Interurban line.

F. W. Coon of Edgerton, editor of the Wisconsin Tobacco Reporter, was in the city today on business.

J. P. Gage, the popular landlord of Milton Junction, called on his numerous friends yesterday.

Miss M. Alden of Washington, D. C., will be the guest of her sister, Mrs. F. C. Cook, for a month.

Senator Harry C. Martin of Darlington and Assemblyman A. S. Douglas of Monroe were in the city yesterday on their way home from Madison.

E. W. Heylman of this city has been granted a patent on a corn planter.

E. K. Ristern, treasurer of the town of Avon was in the city today and called on county treasurer Rice to settle the town of Avon's indebtedness to the county.

Mrs. George Tarrant, Sr., of Durand, Wis., is the guest of her sister, Mrs. S. Russell, 120 East Milwaukee street.

Judge Warren D. Tarrant of Milwaukee will be the guest of his aunt, Mrs. S. Russell over Sunday.

CIGARS ARRIVE FROM MANILA

Former Janesville Boy Sends Dr. Buckmaster a Box from Philippines.

Dr. S. D. Buckmaster today received a present of a box of cigars from Charles H. Loebner, who is the stenographer at the army headquarters at Zamboanga, on the island of Mindanao. Mr. Loebner at one time worked for Dr. Buckmaster. He enlisted in the army for service in the Philippines and was made clerk and stenographer at the army headquarters.

In his letter Mr. Loebner stated there had been 2,700 deaths from cholera on the island in a short time, but that so far only two Americans had died of the disease.

Many Ducks in Illinois: Duck shooting in Illinois, just south of Beloit, on Rock river, is reported to be first class. One man killed thirty ducks and five geese in a short time a day or two ago. The interurban road makes it easy to reach the shooting grounds from this city, but the non-resident license fee in Illinois is \$10, and very few people care to pay that sum for a few days' shooting.

Court Street M. E. church supper this evening from 5:30 to 7:30.

What Is The Latest and Swellest Idea In Spring Suits and Overcoats?

There is no definition to the question. Any high class tailor will tell you that the day of narrow limit in regard to this point is past.

The Decree of Fashion

Is not to be violated but the successful tailor prides himself on styles of his own those distinctly different from others and yet not out of harmony with the principal characteristics. This is sound common sense. We are not all of perfect build, like the men in the pictures; most of us have some peculiarity of form that would not permit a freak style. We consult our customer's tastes and conform the garment style to his ideas and build. Our cutter is thoroughly capable of assuming the responsibility of making the clothing to satisfy any man; the suit we make to your measure at \$35 will contain every dollar's worth of value that you put into it.

The Cloths We Handle

are purchased from E. H. Van Ingen & Co. of New York, the largest high class dealers in fabrics in the world—each pattern is exclusive, no two alike and the assortment equal to any tailoring establishment in the largest centers. Brown mixtures, stripes and overplaids for suits this Spring. Cheviots and coverts for overcoats. We assume. You understand it is a pleasure to show them.

The Decree of Fashion

Is not to be violated but the successful tailor prides himself on styles of his own those distinctly different from others and yet not out of harmony with the principal characteristics. This is sound common sense. We are not all of perfect build, like the men in the pictures; most of us have some peculiarity of form that would not permit a freak style. We consult our customer's tastes and conform the garment style to his ideas and build. CONFERENCE AT CENTRAL HALL

EASTERN MISSION OF EVANGELICAL LUTHERAN SYNOD.

LAST SESSION MONDAY NIGHT

English Lutheran Pastors from Milwaukee, Racine, and Elsewhere.

Services beginning tomorrow morning and continuing through Monday evening will be held in the city by pastors of the Eastern Mission conference of the English Evangelical Lutheran Synod of the northwest. In this conference there are five churches. The meetings of which this is the fourth, are held semi-annually.

Large attendance from out of the city is not expected. The foundation of the English Lutheran churches in the state does not date back many years, and in the district which has been outlined for the Eastern Mission conference the growth is considered very encouraging, when the short history of the evangelical church is taken into account. The conference includes southern and eastern Wisconsin.

In St. Peter's Church Selecting Janesville as the scene of the conference is largely the result of the desire to encourage and lead to the further growth of the newly organized congregation of St. Peter's in this city. The meetings will probably not be held in the regular place of worship of the congregation—the Cathedral room—but will be taken up another flight of stairs to Central hall in the same block.

First of the services will be the Sunday morning meeting at 10:30 o'clock. The sermon will be delivered by Rev. G. H. Gehl of the Church of the Holy Communion, Racine. In the evening at eight o'clock the sacrament of the Lord's supper will be administered, and an address given by Rev. W. K. Frick of the Church of the Redeemer, Milwaukee. His theme will be "Peter's Faith and Christ's Church."

Monday's Program. At two o'clock on Monday afternoon the meetings will be continued. After the opening service the program will be divided into halves, the first devoted to the congregation and the latter to the children. Under the head of The Congregation, Rev. P. E. Balsler of Grace church, Kenosha, will speak of its beginning, and Rev. H. K. Gebhart of the English Lutheran Church, Plattville, of its relation to the Synod. In connection with the topic "The Children" Rev. Gehl will speak of their duty to the Sunday School, and Rev. Frick of their duty to the Church.

Monday evening the conference will come to a close. Two addresses will be delivered, one by Rev. Gebhart on the English Lutheran Church—Past, Present, and Future, and the other by Rev. Balsler on Christian Offerings.

What Is The Latest and Swellest Idea In Spring Suits and Overcoats?

There is no definition to the question. Any high class tailor will tell you that the day of narrow limit in regard to this point is past.

PLAIN FACTS ARE TERSELY STATED BY THE OBSERVER

CITY GOVERNMENT IS STILL THE
INTERESTING THEME.

FACTS OF INTEREST TO ALL

Undisputable Arguments Are Ad-
vanced for Making the City Much
Better Politically.

To the editor: As the conven-
tion days approach, the discussion
of city affairs takes on a wider range
and the observer is pleased to note
a continuance of the reform prin-
ciples as the predominating idea.
Candidates have been suggested at
a public meeting of voters, but the
action of the convention is yet an
unknown quantity. However, the
fact is admitted that reform prin-
ciples in general as originated by the
league, taxpayers must be practiced
by the incoming city administration
no matter who represents it.

The First Step
A new system of bookkeeping is a
good thing to have, but it constitutes
a single incident of long delay, and
of itself doesn't figure greatly as a
reform. Even the best of bookkeep-
ing is capable of being used to con-
ceal rather than to expose.

A Notable Discussion
Once on a time the subject of
what constituted a model city was de-
bated by learned gentlemen chosen
from different professions, advoca-
tions, religious views and of widely
different politics. When the final
summing up took place it was found
that no two of them were in agree-
ment but each had answered the
question according to the school of
philosophy to which he belonged.
And thus the fact will doubtless re-
main forever in the history of the
generations of men. Some will be
born liberal, while others are obliged
to have it thrust upon them.

Those Golden Streets
It is a comforting idea when the
preacher portrays the New Jerusa-
lem as the model city with its per-
fect government and its golden
streets. People say it is grand and
congratulate themselves that earthly
city officials will not be likely to get
past St. Peter with his withering
glance, and yet how true it is that
many a city official has been unjust-
ly condemned simply because his
back was weak and he became the
creature of circumstances.

How They Feel
The apostle of temperance would
doubtless be content with fierce pro-
hibition in spite of sturdy Vermont,
whose people after sixty years of ex-
perience have just decided that the
old law writers were consistent when
they declared that "The greatest foe
to immoral conduct was lawful li-
cense." It is at this point that the
popular theory of government for
the whole and favors to no particular
class asserts itself permanently and
is accepted as the best that can be
had under modern civilization. It
is best to avoid unpleasant compar-
isons whenever the story will permit,
but the theme justifies the hope that
sometime somewhere a city govern-
ment may be found which theolog-
ians and teachers will not point at
to illustrate the reign of Satan dur-
ing his thousand years.

The Chairman of a Committee
If there is one item in the affairs
of a city council which more than
another, opens the way for scandal,
it is that form of committee work
which leaves everything to the
chairman while the balance of the
committee welcome the escape from
responsibility as an official boon. And
not every man can resist this tem-
ptation to use this power so easily
obtained, for personal interest which
often clashes with honest govern-
ment. Has the reader ever held
office? If so, he knows the satis-
faction of being right when called
upon to decide against the wrong.

Those Official Reports
Open discussion of city affairs
seems to be the only known method
of discovering the plainest truths, and
the people of Janesville are just find-
ing out after more than 50 years
that their system of doing public
business is wrong and must be im-
proved.

For instance has anybody suggest-
ed a reason why official reports due
to be made to the council should be
omitted without explanation.
People say that the official is not
doing his duty, but excuse the com-
mittee chairman whose duty it is to
receive it.

Once a Year Not Enough
We are told that the public has
been purposely kept in ignorance of
the business methods connected with
the stone quarry, but as the same
methods exist in the dispensing of
ward funds, the whole department
of street work has been a mystery
to the men who pay the taxes which
no particular system of bookkeeping
can ever make presentable. Once a
year is not enough for the business
public to read the expense account,
which of necessity has to be more or
less generalized and abbreviated in
order to confine it within reasonable
space.

Retrenchment of Expenses
Of course now that the observer
writes by invitation the Gazette
readers will hardly expect him to
dodge the subject of retrenchment
which is also a current theme with
the masses. He has never happen-
ed to meet with the man who com-
plained because his assessment was
too low, has never associated with
anybody who expressed a fear of not
being taxed enough and knows of no
city unless it be the glorious paint-
ing of St. John the divine, where the
demand for retrenchment is never
heard.

And yet even retrenchment is not
always possible on account of ob-
ligations previously entered into.
The public credit, like the public
order has to be maintained at any
price. But how would it do to give
the people

A Breathing Spell
once in a while. How many tax-
payers, for instance supposed when
the innocent street roller was pur-
chased that it pointed at a stone
quarry and a crusher, and last but

by no means least, towards the es-
tablishment of a permanent city in-
dustry, thereby furnishing a prac-
tical illustration of paternal govern-
ment at the tax-payers expense. Re-
trenchment means to cut off expense
whereas, on the other hand, the pub-
lic streets must be maintained in a
serviceable condition at all times.
I refer to the financial feature be-
cause it is an acknowledged fact
that all city legislation points at the
treasury sooner or later, and it mat-
ters nothing whether it be direct or
indirect so long as it gets there
finally. If the law is not clear upon
the point of what constitutes a
proper claim against the treasury, it
is only fair once in a while to give
the city

The Benefit of the Doubt
If chairmen would insist upon their
rights the work itself would not ac-
cumulate and doubtful claims would
rarely be presented for payment. It
is useless to talk of retrenchment
unless the questionable claim can be
mailed in the committee room.

Public institutions are also on the
list of necessities. Salaries estab-
lished by the proper authority have
to be paid, but after all there must
be somewhere

A Stopping Point
where the limit is reached, and so
far as this city is concerned the pub-
lic can thank the Municipal league
for making it possible hereafter for
the private citizen to have a reason-
able protection against being dam-
aged because he dared express an
opinion openly.

Proper retrenchment ought to in-
dicate the cutting off of superfluous
items even though there may be no
demand for the reduction of legit-
imate expenses. Dry and uninterest-
ing as the theme may be, it never-
theless commends itself to thinking
minds on account of the

Justice and Equity
with which it is capable of being ap-
plied. There is no demand for pars-
imony, but the opposition to needless
extravagance is equally decided.

The observer has merely sought
for facts to mention hastily which
have been supported by the official
figures in previous communications,
leaving the reader to select for him-
self whether it is necessary, whether
self whether he prefers to be guided
by prejudice of any kind.

Not within the memory of living
men has Janesville been more
wrought up than at present, and the
best of it is, that everybody, save
here and there a possible exception,
is interested in having good govern-
ment.

Co-Operation Necessary
Good schools, a well supported
fire department, good streets, clean-
liness in alleys, absence of boisterous
conduct in public places are a few
of the excellent things connected
with city life. But in addition to
these, is the co-operation of the
citizens in building up and maintain-
ing business industries that shall
furnish employment for honest labor
and thereby increase the value of
all property.

A Curious Conclusion
And even more conspicuous is the
fact that no one asks to be a candi-
date where unrequited service is the
surest honor in sight. Under
such circumstances who wonders
that even the possible candidates
muse the subject over and wisely
conclude that life's anticipations are
sometimes reversed, and the pleasure
of not being nominated outweighs the
whole. Strange as this state-
ment may read it is no more so than
a good many other things which had
they not occurred, Shakespeare
might never have conjured into
phrase those human troubles which
"knt up the raveled sleeve of care."
The voice of the Municipal league
is still potent because its demands
are founded upon good local govern-
ment administered without political
bias.
Yours Respectfully,
THE OBSERVER.

FEWER CASES OF MEASLES IN CITY

The Epidemic is Not as Prevalent as
It Was Two Weeks Ago—New
Diphtheria Case.

During the past two weeks there
has been a prevalence of measles
in all parts of the city. A number
of school children have been kept at
home by the disease, but the epi-
demic has not spread so as to greatly
thin the ranks of any one school.
Now at the end of two weeks there
has been fewer cases of sickness
from that cause, and the measles
epidemic is evidently on the wane.

As quarantine is not established
for measles in this city, and as there
are some families in which a doctor
is never consulted for the disease,
it is impossible to estimate the num-
ber of cases. It is generally agreed
that the number was quite large

HIGH SCHOOL NOTES

Among the visitors at the high
school yesterday was W. A. Clark,
principal of two Edgerton high
schools; Dr. E. B. Owen of Brookfield;
and W. F. Gaskins of Hillsdale,
Mich., formerly director of music in
the public schools of this city.

Mrs. Day yesterday afternoon ex-
amined members of the Senior class
with a view to selecting those of
greatest histrionic ability for parts in
the commencement play.

Under the direction of County Su-
perintendent of Schools Charles Hen-
ning way teachers' examinations have
continued for the past three days,
ending today. Twenty-three are
taking the examinations, which are
for work in all grades. Among the
writers are about ten members of
the Senior class of the high school.

Diplomas have been awarded to
five of the county pupils who last
Saturday took the common school ex-
amination for entrance to high
schools. The successful scholars
were Lillian Van Hise and Genevieve
Dean of Hanover; Neva Fellows, Ma-
ble Bernard and Lottie Griffith of
Evanston.

FINAL DANCE OF THE SHIRT WAISTS

Business Suit and Shirt Waist Club
Holds Its Fourth and Last
Dance.

Central hall was last evening the
scene of the closing number of that
delightful series of dancing parties
given by the Business Suit and Shirt
Waist club. Owing to the number
of members who are observing Lent-
en restrictions the number of cou-
ples in attendance was slightly ab-
breviated, but the jollity of the oc-
casion was none the less for the
paucity of the dancers. The fourth
and last was pronounced one of the
best of the series. Smith's orches-
tra ably attended to the musical
part of the evening's entertainment.

PROMOTION COMES TO J. H. HILAND

Former Janesville Boy Is Now Third
Vice President of St. Paul
System.

The board of directors of the Chi-
cago, Milwaukee and St. Paul rail-
road has elected J. H. Hiland to suc-
ceed A. C. Bird as third vice presi-
dent of the road. For sixteen years
Mr. Hiland has held important posi-
tions with the Chicago, Milwaukee,
and St. Paul, coming from the east
to accept the general agency of the
road in Kansas City, and a few years
ago being made traffic manager, with
headquarters in Chicago. A. C.
Bird, whom Mr. Hiland succeeds, re-
signed to accept a position with the
Gould system. Mr. Hiland's suc-
cession as traffic manager will probably
be chosen next week.

Mr. Hiland is an old Janesville boy
and started on his railroad career
with the North-Western in this city.

PLAN LIGHTING FOR VILLAGES

Milton and Milton Junction May
Have an Electric System
Established.

A movement is on foot in the vil-
lages of Milton and Milton Junction
to establish an electric lighting
plant for the two villages. The
plant is established will be a home
company and already sufficient capi-
tal has been subscribed to carry out
the plan.

They will furnish light for resi-
dences, lights for the streets and
power for small manufacturing in-
dustries.

It is evidently the intention of the
company to get in running order
and secure their rights before either
of the interurban roads get into
the towns and ask for the lighting
and power privileges.

FLOWER MISSION DOES GOOD WORK

REPORT OF W. C. T. U. INDICATES
GREAT ACTIVITY.

ANNUAL REPORT OF THE UNION

Nine Departments Have All Been
Busy During the Past Twelve
Months.

Report of the work of the Woman's
Christian Temperance Union for the
past year as presented at the annual
meeting reveals a flourishing con-
dition of activity. In each department
the member have been busily en-
gaged in carrying the work, and in the
Flower Mission work especially is
the healthy condition of the organi-
zation apparent. The report was
presented Thursday afternoon at a
meeting held at the home of Mrs.
London.

At the present time the organiza-
tion has 32 members. During the
past year thirteen meetings have
been held. Two memorial gather-
ings, seven public meetings, and one
lecture have taken place under its
auspices. Nine departments have
been conducted and five new mem-
bers gained.

Flower Mission Work
In the Flower Mission department
large quantities of flowers, food,
clothing and literature have been
distributed regardless of the color,
nationality, or creed of the recipient.
As enumerated in the report the
gifts were disposed of in the follow-
ing ways: 1 basket of flowers to
Chicago; 1 box canned fruit and
clothing to the W.C.T.U. home at Eau
Claire; 6 memorial emblems; 4 bas-
kets of food; 6 baskets of vegetables
18 meals; 150 donations of food and
clothing to Janesville needy; 4 blo-
soming plants; and a quantity of li-
terature to the Evansville fair.

To the credit of the lumbermen's
department are four boxes, (310 lbs)
which were sent to Camps Davis and
Sullivan containing the best reading
matter.

Two barrels of clothing and litera-
ture have been sent to Southern
schools by the Freedmen's depart-
ment, and fifty calls have been made
in the interest of this work.

Railroad Department
In the interest of the railroad de-
partment, one mass meeting has
been held for railroad men and their
families.

Seven meetings have been held at
which great interest has been shown
by the mothers department. One
White Ribbon cradle roll social has
been conducted and three children's
meetings held. 67 calls have been
made in the interest of the depart-
ment and the "American Mother" has
been sent to 14 homes.

25 visits have been paid to the
Janesville jail, and 7,472 pages of
reading matter taken to the county
house by the jail and almshouse de-
partment.

Special Events
On the list of red letter days were
recorded in the report Frances Wil-
lard's birthday and Flower Mission
day. Four social meetings were
conducted during the year.
At the annual meeting the follow-
ing officers were elected for the en-
suing year. Pres. Mrs. E. M. Poor-
man; corresponding secretary, Mrs.
E. E. Yates; recording secretary,
Mrs. Daisy Athon; treasurer, Mrs.
Willard Robinson.

ODD FELLOWS HAVE PLEASANT TIME

The Local Lodge Is Visited by a Del-
egation from the Line
City.

A delegation from Beloit encamp-
ment, No. 7, I. O. O. F., visited this
city last evening and were the
guests of Rock River Encampment No.
3. The Golden Rule and Royal Pur-
ple degrees were conferred on can-
didates from the Line City. After
the degree work was concluded an
enjoyable social was held at which
the visitors and locals played High
King and other card games. About
10 o'clock a banquet was served af-
ter which some time was spent in a
social session.

One of the features of the session
was that four past grand patriarchs
of Wisconsin were present, they be-
ing Charles Kendall, of Beloit, S. B.
Kenyon, James A. Fathers, and J. F.
Hutchinson of Janesville. Those
who made up the Beloit delegation
were B. D. Treadway, H. E. Gustaf-
son, Wm. F. Cole, Max Luebke, L. P.
Hagadorn, T. S. Johnson, J. D.
Brooks, R. H. Sharp, S. R. Merrill,

Grimm, C. H. Deakin, E. Noren, Wm.
H. Hutchings, J. A. Howe, J. Reimer,
D. E. Hewitt, G. A. Gustafson, Chas.
Pamondson, G. M. Gustafson, V. H.
Satterlee, Chas. Kendall. The visi-
tors came up on the Interurban and
returned on the last car which was
held a short time for them.

can be carried in the vest pocket,
for a few minutes four times a day,
it will absolutely kill all the germs
of catarrh and cure the disease.

Catarrh cannot exist where Hy-
omel is used. It has a two-fold ac-
tion, killing all the germs in the air-
passages and lungs and soothing
and healing the irritated membrane.

Some of the prominent men and
women of the country have gladly
given testimonials to Hyomel. Af-
ter seeking relief in vain for years
this wonderful remedy has cured
them of catarrh, and it is no wonder
that they want others to know of it.

Rev. Dr. Stryker, of the 34th st.
Church, of New York City, writes,
"Hyomel gives wonderful relief in
catarrh when other remedies have
failed. It has been of great service
to me."

If you have catarrh, accept The
Peoples Drug Co.'s proposition and
use Hyomel.

A Layman's Lenten Sermon.

Twenty-second day of Lent: St. Mark viii. 34.—And He commanded the people to sit down on the ground, and He took the seven loaves, and gave thanks and broke and gave it to the disciples to set before them and they did set them before the people.

And they had a few small fishes and He blessed and commanded to set them also before them.

So they did eat and were filled and they took up from the broken meat that was left seven baskets.

And they, had eaten were about four thousand and He sent them away.

This miracle of the seven loaves and the three fishes has come down to us as one of the most wonderful of all Christ's acts. In some respects it is, yet the raising of the dead and the healing of the lepers is also of so miraculous a nature as to leave no doubt in the minds of skeptics that Christ power was of the supernatural kind.

This miracle came to Him so spontaneously that it was not like many

of His other acts, which might perhaps be premeditated. Here were the four thousand people and here were the seven loaves and three fishes. They had come miles to hear him preach and to send them away now with empty stomachs would have been a cruelty.

What could He do? He took the food, such as it was and after blessing it He fed this vast multitude.

To His disciples this was a wonderful act. They all record it and all make mention of it. This wonderful act comes down to us with redoubled force in the winter that has just passed. We have seen the suffering poor starving for want of food and fuel and to them this verse must have appeared with great force.

If Christ by His great power from His Father could feed such a multitude, can we not place our confidence in Him?

Not to the extent of ceasing to work for our own good, but in that if we turn to His teachings we can find inspirations that will help us in our daily struggle.

...THE WANDERING JEW....

The most remarkable and characteristic legend of story of unhappy peregrinations is that of the "Wandering Jew." By a momentary act of cruelty he condemned himself to centuries of misfortune. The story true or false, is one of the most persistent in poetry, fiction and folklore. Eugene Sue's "Wandering Jew" has been called one of the most famous books of the world. The common version of this story is that Christ, bearing his cross, on the way to Golgotha, stopped before the house of Abasuerus, the shoemaker, and asked to be allowed to rest a moment on a stone bench before the door. "Go on," replied Abasuerus. "Thou shalt go on until the end of time,"

answered the Savior, and so the Wandering Jew may never find home nor rest, nor even pause. Another version of the story is that the man was Pilate's Roman doorkeeper, who struck Jesus as he came from the hall of judgment, saying: "Go on faster. Why dost thou linger?" Jesus answered: "I will go, but thou shalt remain waiting till I come." Many solemn and learned Latin treatises have been written on this subject, and in the sixteenth and seventeenth centuries men of veracity, prelates of the church declare that they have met this wanderer, even dined with him, and that never smiling, often weeping and longing for death, he was forced on, without hope or rest.

A Full-Sized Bottle Free.

If you suffer from a germ trouble, and will try Ligozone for it, we will furnish the first bottle free. We do this to save delay—to convince you at once and forever that Ligozone does kill germs. Then please tell your friends about it.

No Drugs in Ligozone.

Ligozone is simply liquid oxygen; not a drug of any kind in it. It is the discovery of Paul the great German chemist, who spent 20 years on it. The process of making requires 14 days. Ligozone creates in the blood such an excess of oxygen that no germ can live in any membrane or tissue.

Ligozone—liquid oxygen—solves the great problem of killing germs in the body without killing the tissues, too. No drug will do that, and medicine can never reach the cause of a germ trouble. But Ligozone clears the whole body of germs—inside and outside; and it kills them with oxygen—a tonic—the very essence of life to you. The reason is that germs are vegetables, and Ligozone, while harmless and helpful to all animal matter, destroys vegetables.

In every country a company is being formed to furnish this wonderful product to physicians, to hospital and direct to the sick. This company owns the rights to the United States, and to have the sick use Ligozone at once, we offer the first bottle free to any one unwilling to buy it. We will gladly send you an order on your druggist for it—wherever you are—and instruct him to charge it to us.

If you need help, please learn what Ligozone does. Learn at our expense, and you will never afterward live in a house without it.

Two sizes—50c and \$1.00—at drug stores.

Kills the Inside Germs.

These are some of the common diseases known to be caused by germs, and, as most of the germs are inside, no drugs that are harmless can kill them. Ligozone cures all these diseases, for the cause of all is germs, and Ligozone destroys germs always, inside or outside the body.
